

# NoviPro FoamPack

Low-pressure delivery system.

The FoamPack is designed to fulfill all low-pressure needs of a self-serve car wash. From foaming presoak and tire cleaner at the overhead boom to a foam brush or foam cannon system, the FoamPack delivers.

## TECHNICAL FEATURES

- Stainless steel backplate.
- Stainless steel solenoids for air and product.
- Flojet air pumps deliver products up to 5GPM @ 90psi.
- Accommodates up to 8 bays per one FoamPack, with the option to combine systems for larger sites.
- Included tie-in fittings with high-pressure check valve.
- Detailed installation instructions included.

## DIMENSIONS

- 21.5"W x 26.5"D x 73.25"H (per PumpPack)  
(54.61cm x 67.31cm x 186.06cm)

## FLEXIBLE MOUNTING OPTIONS

The FoamPack allows for wall mounting or direct mounting on the front or sides of the NoviPro ChemPack, saving wall space in the equipment room.
