

# NoviPro MiniEQ

Compact water recycling system.

Built with the same proven reclaim technology used at large-scale equipment wash facilities worldwide, the MiniEQ delivers a reliable source of recycled wash water with a small equipment footprint.

## TECHNICAL FEATURES

- Recycles up to 40 GPM of wash water
- Designed for use with pressure washers, firehoses, and automated wheel & chassis wash systems
- Industrial-grade components in a compact footprint
- Simple operation and low maintenance
- Built for rugged wash environments and continuous use

## BUILT FOR THE MOST DEMANDING APPLICATIONS

The MiniEQ is built to meet the needs of heavy vehicle buildup, high-volume wash operations in industries such as:

**Oilfield & Energy**

**Mining & Quarry Operations**

**Agriculture & Agri-Processing**

**Heavy Equipment Maintenance Shops**
