

# NoviPro PumpPack-Solo

Compact, single-pump pressure washer system.

NoviClean's solution for basic pressure washer cleaning applications—available as cold- or heated-pressure washer systems.

## TECHNICAL FEATURES

- Heavy-duty, 12-gauge, powder-coated, modular PumpPack-Solo.
- CSA-approved, pre-wired motor control center.
- Standard CAT 310S 5hp pump (as pictured)
- Various CAT Pump configurations available.
- Baldor high-efficiency, 3-phase motors.
- Carlo Gavazzi contactor and overload.
- Built-in belt-tensioning and oil drain systems.
- Quick-disconnect fittings on all fluid lines for ease of servicing.

## OPTIONAL FEATURES

- Wall mount kit.
- Delay off timers.
- Hot water options include: electric, natural gas, or propane
- 7.5HP Motors (184, 213/215 frame options).
- Customized layouts available.

## DIMENSIONS

- 21.5"W x 26.5"D x 18"H (per PumpPack)  
(54.61cm x 67.31cm x 45.72cm)

## ELECTRICAL REQUIREMENTS

### Per Bay:

#### 208VAC, 3-Phase

- 20AMP, Twist-Lock Receptacle (w/5hp Motor)
- 30AMP, Twist-Lock Receptacle (w/7.5hp Motor)
- 30AMP, Twist Lock Receptacle (w/10hp Motor)

#### 575VAC, 3-Phase

- 10AMP, Twist-Lock Receptacle (w/5hp Motor)
- 15AMP, Twist-Lock Receptacle (w/7.5hp Motor)
- 20AMP, Twist Lock receptacle (w/10hp Motor)

## WATER CONSUMPTION

### Inlet – Garden Hose Connection, Outlet – 3/8” Swivel Connect

- Up to 1500psi @ 4GPM w/ CAT310, CAT5CP2120, Arimitsu 313
- Up to 2200psi @ 5GPM w/ CAT 530, CAT5CP5120, Arimitsu 516
- Up to 2500psi @ 6GPM w CAT5CP5120
- Up to 1200psi @ 10gpm w/CAT5CP6190

## STANDARD PUMP OPTIONS

Model No.	Pump	Motor Size	Power @208V 3-phase*	Power @575V 3-Phase*	Flow	Pressure
NCL310P5HP	CAT 310S	5hp	20 Amp	10 Amp	4 GPM	1500 PSI
NCL5CP5HP	CAT 5CP2120	5hp	20 Amp	10 Amp	4 GPM	1500 PSI
NCL530P7HP	CAT 530	7.5hp	30 Amp	15 Amp	5 GPM	2200 PSI
NCL5CP7HP	CAT 5CP6190	7.5hp	30 Amp	15 Amp	10 GPM	1200 PSI
NCL5CP10HP	CAT 5CP5120	10hp	30 Amp	20 Amp	6 GPM	2500 PSI

\*All motors require twist-lock receptacles

## HEATER OPTIONS

The PumpPack-Solo can function as a hot-water pressure washer by directly supplying hot water to the pump or integrating downstream heating options, including electric, natural gas, or propane.
