TECHNICAL DATA SHEET

MANUFACTURED IN CANADA

H.D. LIQUID CAR WASH

PRODUCT NUMBER: NA258

This product is a top-quality blue liquid car wash detergent specifically designed for use in automatic car washes. It may be applied with brushes, foam generators or hand mitting. It is a mild, concentrated, viscous product that produces a high, stable foam. It contains superior lubricity for longer brush life, is phosphate-free and fully biodegradable.

DIRECTIONS:

When used with automatic brush equipment, adjust feed ratio to produce desired cleaning, foam and lubricity. When used with foam generators dilute product 1:50 with water. When used in mitt tank operations dilute product 1:300 with water. When used in industrial applications for cleaning and degreasing using a pressure washer dilute product 1:50 to 1:100 with hot water.
