NoviChem BY NoviClean

# TECHNICAL DATA SHEET

MANUFACTURED IN CANADA

# COLD SPRAY WAX

**PRODUCT NUMBER: NA260**

This product is a cationic liquid polish and dewatering agent. It is diluted with water and added to the final rinse water of a car wash process. When this solution is sprayed on the car it is attracted to the metal surface like a magnet. Its use builds up luster and corrosion protection as well as dramatically simplifies drying procedures.

---

## DIRECTIONS:

This product may be pre-diluted at 1 part to 10 parts of water before final dilution and application. It may also be directly diluted by using automatic dispensing equipment with up to 350 parts of hot or cold water. Dilution ratios are dependent on desired final results.
