ALUMINUM BRIGHTENER EXTREME

PRODUCT NUMBER: NA265

This is a concentrated cleaner and brightener for aluminum trailers or other exterior unpainted aluminum and stainless steel surfaces. It removes oxidation, leaving a shining surface. This product is a special blend of surfactants, sulphuric and hydrofluoric acids.

DIRECTIONS:

Use in concentrations from 1:10 to 1:20 parts with water, depending upon surface to be cleaned and the extent of oxidation. Avoid contact with glass. It can be applied with spray or brush and should be left on the aluminum surface for 2 to 5 minutes. Longer contact time may result in damage to the aluminum. Rinse with plenty of water.

CAUTION:

Special precautions should be used when working with this product. Do not breathe vapours. If contact is made with skin, flush with plenty of water and get immediate medical attention.
