NoviChem BY NoviClean

TECHNICAL DATA SHEET

MANUFACTURED IN CANADA

RUST INHIBITOR

PRODUCT NUMBER: NA270

This product is formulated with a corrosion inhibitor designed to protect against rust, pitting and corrosion of steel and soft metals.

The inhibitor bonds to the metal surface by electron transfer, which ultimately produces a barrier to the dissolution of metal.

This product is well-suited for use on undercarriages of vehicles after car wash application and may be used in a number of other corrosion prevention areas.

DIRECTIONS:

Dilute product 1:100 with water and spray on clean surfaces requiring protection. Do not rinse.
