TECHNICAL DATA SHEET

MANUFACTURED IN CANADA

AUTOMOTIVE PRESPRAY PLUS

PRODUCT NUMBER: NB275

This product is a concentrated viscous liquid detergent with a strong cherry scent. It is designed for use in automatic car wash systems, touchless car wash systems and with pressure washers. Automotive Prespray Plus is formulated with very high-foaming biodegradable surfactants and a blend of chelating agents to effectively remove dirt and road film. This product has very high alkalinity and contains no solvents.

DIRECTIONS:

When used with automatic brush equipment, adjust feed ratio to produce desired foam and cleaning. When used with touchless car wash or pressure wash equipment, an initial recommended dosage is 1 – 2 oz per gallon (7-14 ml/L). Adjust metering tip accordingly for desired foam and pH.

CAUTION:

Contains caustic soda. Avoid prolonged contact with chrome and aluminium, especially when running at a high pH.
